February | 2019

2019 has had a busy start with building reforms, opal tower defects and tomorrows deadline is fast approaching for certain strata schemes that may have external combustibile cladding to register their building on the NSW government portal.

SCA (NSW) continues to educate strata committee members in our half day training courses. If your unable to attend one of our course dates you'll be pleased to know that we are now offering the training online.

Regards,
SCA (NSW) Team

[New Building Reform](#)

[Opal Tower Defects](#)

Following the building disaster at the Opal Tower in Homebush in Sydney's western suburbs, the NSW Government recently announced that it would be implementing a number of reforms including appointing a Building Commissioner.

Keep Cool Without Costing The Planet

With the planet warming, every effort must be made to keep cool without increasing climate change.

The amount of energy used for cooling buildings has [doubled worldwide since 2000](#). Without efficiency gains, this could more than double again between now and 2040.

Strata Skills 101

Live smarter in strata

Sydney2030/**Green/Global/Connected**

Approximately 80% of residences in the City of Sydney local area are apartments - over 5 times the national average.

Different rules and approaches can apply in apartment blocks and not everyone is used to high-density living.

If you're new to apartment living, City of Sydney Council has developed a series of workshops to build your skills in different areas of strata, and to provide you with helpful tips and strategies.
