

I am the founding Partner at Grace Lawyers and have been involved in the strata industry for around 35 years in various forms and have been on the SCA board for a few years.

As a services chapter representative I have provided the Board with assistance and guidance on issues that affect the industry as a whole and using my skillset in law assisting during the many legislative review processes that have been occurring. I hope, if re-elected, to assist in the latest round of legislative changes to the Strata Schemes Management Act and the newly announced review into the Community title legislation. I am committed to the industry and the service providers within it and hope to continue that work for the next 2 years.

Kind regards

Colin Grace
