Dear Ms Ince,

I am writing on behalf of the NSW Liberals and Nationals to acknowledge your letter of 13 March and to thank you for your contribution ahead of the NSW election.

I understand that you have also shared and discussed the contents of your correspondence with my office.

We are sincerely grateful for your continued constructive engagement, which has helped to shape our long-term plan to secure our state's future.

Over the past 12 years, the NSW Liberal and Nationals Government has pursued a host of reforms aimed at making life easier for people living in strata. Examples include overhauling strata laws, bolstering protections for buyers who purchase property off-the-plan, and the creation of the Property Services Commissioner and Building Commissioner positions.

SCA should be commended for their collaboration on the development and introduction of the Strata Portal that will impact a generation of strata residents.

The NSW Liberal and Nationals Government has also introduced comprehensive reforms to the way buildings are designed, constructed and certified. These legislative reforms are ensuring that comprehensive designs are prepared by competent design professionals, that builders follow these designs to deliver buildings that are fit for purpose and holding certifiers accountable for oversighting the design and build process. Underpinning these changes is a need to give consumers confidence that their buildings will be compliant, safe and resilient.

It was also recently announced that a re-elected Liberal and Nationals Government will implement a rental reform package that will provide tenants with the strongest protections in the country.

We hope to have the opportunity to engage further with you in the next term of government as we put our long-term plan into action.

Thank you once again for your contribution and for your commitment to the strata sector and the future of NSW.

Yours sincerely,
